Mr. Tracy Wilson
Manager, Quality Control
Tech-Tool Plastics, Inc.
7800 Skyline Park Drive
Fort Worth, Texas 76108

Subject: Tech-Tool Plastics, Eurocopter BO105A, C, S, LS A-1, and LS A-3 Windows,
FAA/Parts Manufacturer Approval Supplement No. 41

Dear Mr. Wilson:

You may use this letter to give to any Civil Aviation Authority.

The above Parts Manufacturer Approval Supplement was issued in accordance with FAR 21.303 (c) for test and computation requirements. Therefore, this office and the Manufacturing District Office made the finding that Tech-Tool Plastics' data complied with all required Federal Aviation Administration airworthiness. A Supplemental Type Certificate was not issued for the design approval of these replacement windows since this design change is not a major change to the type design as defined in FAR Section 21.93 "Classification of changes to the type design."

If you have any questions please feel free to contact me at (817) 222-5176.

Sincerely,

Efrain E. Esparza
Program Manager,
Rotorcraft Certification Office
