Mr. Tracy Wilson  
Tech-Tool Plastics, Inc.  
1 Eagle Lane  
Palm Harbor, Florida 34683

Reference: STC SR03016AT

Dear Mr. Wilson:

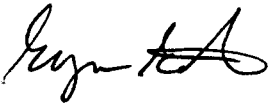

We have received your letter dated January 26, 2005 requesting reissuance of Supplemental Type Certificate (STC) SR03016AT to correct the company address. Please find attached the reissued STC which approves the installation of replacement windows in accordance with Tech-Tool Plastics, Inc. Master Drawing List No. 407-1000-100, dated 23 February 2004 or later FAA approved revision on Bell Helicopter Textron Model 407 aircraft.

This STC is official Federal Aviation Administration (FAA) approval of your modification and may be used to authorize identical modifications on other aircraft of the same model, subject to the limitations noted on the certificate. It may be transferred or otherwise made available to another party by means of a licensee arrangement in accordance with Federal Aviation Regulation (FAR) 21.47. If you, as the holder of this STC, agree to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission. You are required to advise this office within 30 days after the transfer when you transfer or grant licensee rights to the STC in order that we may take the necessary recording or reissuance action.

As recipient of this approval, except as provided in FAR 21.3(d), you are required to report any failure, malfunction, or defect in any product or part manufactured by you that you have determined has resulted or could result in any of the occurrences listed in FAR 21.3(c). The report should be communicated initially by telephone to the Manager, Atlanta Aircraft Certification Office, telephone number (770)-703-6050, within 24 hours after it has been determined that the failure has occurred. In addition, written notification to the Certification Office, at the above address is required. FAA Form 8010-4 (Malfunction or Defect Report) or any other appropriate format is acceptable in transmitting the required details.

If you plan to manufacture replacement or modification parts for sale in conformance with approved data listed on the Certificate, you are required to comply with FAR 21.303. A Parts Manufacturer Approval (PMA) may be issued under the provisions of FAR 21.303(d) when you submit a statement certifying you have established the fabrication inspection system as required by FAR 21.303(h). The identification requirements for parts produced under a PMA are in FAR 45.15. Your statement may be in letter form, with reference to STC SR03016AT and should be addressed to the Atlanta Manufacturing Inspection District Office.

Sincerely,

A handwritten signature in black ink, appearing to read "Eugene E. Evans". The signature is fluid and cursive, with a large initial "E" and a stylized "A" at the end.

Eugene E. Evans  
Associate Manger, ACE-117A  
Atlanta Aircraft Certification Office
